PROFESSIONAL SUMMARY

Certified Odoo Functional Consultant (v16) and Senior Odoo Developer (Python) with 6 years and 12+ delivered ERP projects for government, procurement, healthcare, manufacturing and e-commerce in Saudi Arabia and abroad. Delivers end-to-end Odoo implementation, customisation and consultancy across v12–v20, including 5 code and database migrations, ZATCA FATOORA compliance, SAP integration, role-based security, performance optimisation and infrastructure on Odoo.sh, AWS and on-premise servers.

For the past 2+ years, also building AI for Odoo: permission-aware assistants and automation with FastAPI, LangChain, LangGraph, RAG and vector databases, plus AI semantic search and product recommendation apps published on the official Odoo App Store.

KEY ACHIEVEMENTS

- Leading Odoo delivery of the Ministry of Islamic Affairs' E-Masajid platform, serving 6,000+ users.
- Completed 5 cross-version Odoo migrations of code and database, up to v20; delivered full ZATCA e-invoicing (FATOORA) compliance.
- Published AI Smart Semantic Search and Product Suggester apps on the Odoo App Store; AI cross-sell and up-sell saves about 95% of manual work.
- Built an AI healthcare assistant that generates 10+ page patient reports in under 2 minutes, saving carers 80%+ of report time.
- Built bulk quality control for orders with 1,000+ different products, with partial pass and fail quantities per line.
- Built multi-LLM Odoo assistants (Claude, ChatGPT, Gemini, Ollama) with permission-aware access control, live on websites, portals, WhatsApp and REST API.
- Won FPCL's Successful E-Procurement Implementation Award for the e-bidding and vendor portal system.

TECHNICAL SKILLS

- **Odoo ERP:** v12–v20 (Community & Enterprise), ORM, Custom Modules, XML Views, QWeb Reports, Automated Actions, Multi-company, Code & Database Migration, Performance Optimisation (Query Tuning, Raw SQL, Job Queues, Deadlock Prevention), App Store Publishing
- **Security:** RBAC, Security Groups, Access Rights (ACLs), Record Rules, Data-Leakage Prevention, Permission-aware APIs & AI Agents
- **Functional Modules:** Sales, Purchase & Procurement, Accounting, HR & Payroll (Saudi and EU), Inventory & Multi-Warehouse, Manufacturing, Quality, Barcode, Rental, Retail & POS, eCommerce, Website, Portals, CRM, Helpdesk, Project, Recruitment, Timesheets, eLearning, School & Campus Management
- **AI & Automation:** Claude, ChatGPT / OpenAI, Gemini, Ollama, Fine-tuned GPT, Prompt Engineering, LangChain, LangGraph, RAG, Embeddings, pgvector, Semantic Search, Tool Calling, n8n, WhatsApp AI Assistants, Human-in-the-Loop
- **AI Use Cases:** CV Screening & Candidate Ranking, Application Auto-fill, Health Report Generation, SEO Content, Product Translation, Cross-sell & Up-sell, Email Drafting, Ticket & CRM Lead Handling
- **Backend & Frontend:** Python, FastAPI, Pydantic, SQLAlchemy, REST APIs, PostgreSQL, Redis, OWL, JavaScript, QWeb, XML, HTML, CSS / SCSS
- **Infrastructure:** Odoo.sh, AWS (incl. Queue Services), Contabo, Hostinger, On-premise, Linux, Docker, Nginx, Cloudflare, DNS, SMTP, Git
- **Integrations:** ZATCA (FATOORA), Yaqeen, SAP, Payfort, Tabby, Tamara, Checkout.com, Nana, Naqel, SMSA, Twilio, WhatsApp Business API, Ziwo, Zoho
- **Consulting:** Requirements Gathering, Business Analysis, Solution Design, Go-Live & Support, Team Leadership, Mentoring, Stakeholder Management

PROFESSIONAL EXPERIENCE

Senior Odoo Developer (Python) | Team Lead — Enseyab Jan 2024 – Present · Riyadh, Saudi Arabia

- Lead the Odoo team delivering the Ministry of Islamic Affairs' E-Masajid platform, from requirements and solution design to go-live and support for 6,000+ users.
- Lead the company's AI work: a FastAPI and LangChain assistant on Claude, ChatGPT, Gemini, Ollama and fine-tuned GPT models that answers order, stock, ticket, HR and policy questions from live Odoo data, via website widget and REST API.
- Built AI automation that saves hours of manual work: drafted emails, WhatsApp auto-replies with human handover, and automatic ticket and CRM lead handling.
- Designed role-based security (groups, access rights, record rules) mirroring the real access structure, extended to AI agents so they never expose unauthorised records.

- Led v16 to v18 and v17 to v19 upgrades; optimised slow operations with query tuning, raw SQL and background job queues to prevent deadlocks.
- Own infrastructure on Contabo, Odoo.sh, AWS and on-premise; integrated Nana, Naqel and SMSA carriers, Twilio, WhatsApp Business API, Ziwo and Yaqeen.
- Developed REST APIs for mobile and third-party apps, and built the donation portal against a .NET backend.

Senior Odoo Developer (Python) | Team Lead — Virtual Reality Solution Nov 2022 – Jan 2024 · Saudi Arabia

- Implemented full Odoo ERP and e-commerce covering supply chain, manufacturing, inventory and repair, plus retail and POS for Infiniarc.
- Delivered ZATCA e-invoicing (FATOORA): QR codes, UBL XML invoices and real-time validation; integrated Payfort, Tabby, Tamara and Checkout.com.
- Built a stock-reservation engine that prevents overselling across all sales channels.
- Mentored the developer team and owned delivery quality across concurrent projects.

Odoo Developer (Python) — FPCL (FFBL Power Company Limited) May 2021 – Nov 2022 · Islamabad, Pakistan

- Designed the e-bidding solution end to end, turning the company's procurement rules into Odoo workflows, then built the full E-Procurement system with multi-level approvals and SAP integration.
- Built a vendor portal covering purchase requisitions (PR), purchase orders (PO), e-bidding, automated notifications and e-invoicing.
- Developed comparative bid statements that highlight the lowest-price vendor, giving management clear insight for faster purchasing decisions.

Junior Odoo Developer (Python) — Aarsol (Pvt) Ltd Dec 2020 – May 2021 · Islamabad, Pakistan

- Trained on the Odoo framework and core modules, then worked on campus management modules for a university, building reporting dashboards, registration forms and workflow automation.

SELECTED PROJECTS

- **SupportIQ** (AI Platform · Personal Project): Self-hosted platform for building AI support agents without code: any LLM with fallback, hybrid RAG with sources, approval guardrails for risky actions, human hand-off, customer memory, website widget, MCP and an Odoo connector; FastAPI, LangGraph, pgvector, 210 automated tests.
- **E-Masajid** (Ministry of Islamic Affairs, KSA): Mosque management platform for 6,000+ users, integrated with mobile apps and government systems.
- **Jazi** (E-Commerce, China & KSA · Remote): Multi-country, multi-warehouse Odoo hub for website, vendor portal and mobile app via AWS queues, Zoho and payment gateways; bulk QA, barcode redesign and performance work.
- **All Life Sciences** (Healthcare & Recruitment, Malta): Full implementation covering project management, EU accounting, payroll, HR, recruitment and an e-learning academy, plus a contributor portal for timesheets and tasks; AI CV screening and ranking, application auto-fill and SEO content; v17 to v18 migration.
- **MyCare Malta** (Healthcare, Malta): Patient, provider and B2B portals, appointments, pharmacy and a central product master; AI assistant that manages patient history and generates 10+ page health reports in under 2 minutes, editable by section or with AI.
- **Kamar2** (Retail, Riyadh): Customisation and v17 to v20 migration; WhatsApp AI assistant that answers from the knowledge base and creates quotations, leads and tickets.
- **Rental Car** (Riyadh): Odoo development for a car rental business, including a v16 to v18 migration.
- **Infiniarc** (Virtual Reality Solution, KSA): Full ERP and e-commerce implementation, plus retail operations with POS.
- **FPCL E-Procurement** (Energy, Pakistan): Company-wide procurement platform covering the full purchase cycle, from purchase requisitions through e-bidding, comparative bid statements and multi-level approvals to purchase orders, vendor notifications, e-invoicing and SAP integration. Award winner; migrated from v15 to v17.
- **Also delivered:** Veterinary Hospital Management, Birch Tree, Grecko, Med Info, Employee Tracking.

PUBLISHED ODOO APPS

- **AI eCommerce — Smart Semantic Search**: finds products by intent, including multilingual queries, using embeddings and a vector database.
- **AI eCommerce — Product Suggester**: automates cross-sell and up-sell with co-purchase mining, embeddings and LLM inference.
- **Also published:** AI CV Parser & Recruiter Form, Plaid Bank Sync, Private Chat, Private Thread, POS Product Restriction, POS Invoice Reference, Open New Tab (Odoo 17–19). See all apps

CERTIFICATIONS, EDUCATION & LANGUAGES

- **Odoo Functional Certification (v16)** — Odoo S.A., Feb 2024, Credential ID 0000334159
- LangChain Academy: LangGraph & LangChain Essentials (certificate 1, certificate 2) • Build with AI: Custom Chatbots with n8n — LinkedIn Learning, 2026 • AI & Machine Learning — Udemy, 2026
- **Bachelor of Computer Science** · 2016 – 2020 · Abdul Wali Khan University Mardan, Pakistan · EQF Level 6
- English (Professional, B2) • Urdu (Fluent, C1) • Pashto (Native)
